

## **ABB Video Productions**

### ***Giving the Urban Entrepreneur an Artistic Film & Media Outlet Through Innovative Creation***

#### **Us (About Us)**

ABB Video Productions is a Washington, DC-based urban design and video production company that uses skilled professionals to create video products that give visual merit to clients' artistic desires. The company started from humble beginnings, building a solid foundation working with local entrepreneurs, and has propelled to extraordinary heights, leading the market in urban video production and pulling from a team of valuable resources to make each project unique.

Now a popular option for various local and national icons, ABB VIDEO specializes in Short-Form projects, behind-the-scenes footage and interviews. As the go-to **urban** video production company in the Nation's Capital, ABB Video Productions uses professional-grade, cutting edge technology to produce top-notch, visually stimulating video packages to its corporate and entertainment clientele.

#### **Them (Client List)**

ABB Video Productions takes pride in helping clients create a dynamic and cohesive video presence. From Hollywood actors and Grammy-nominated recording artists to DC-based promoters and those looking for smaller, non-entertainment work. ABB Video Productions has been an intricate part in building some of DC's best and most popular video products:

- Wale - "No Days Off" Short-Form Documentary (Interscope)
- Marky – "Louis Squares" (Universal/SRC)
- JayFreshKicks - Producer (Universal Publishing)
- Life in the Fast Lane (Pilot)
- LikeBlood - Music Video (Behind the Scenes)

ABB VIDEO Productions has gone beyond Washington, DC border to produce projects:

- Tony Rock - (Pilot)
- Yung Berg - Music Video (Behind the Scenes)
- Nooka – Fashion (Interview)

#### **You (Next Steps)**

From concept development to postproduction, ABB Video Productions offers an unparalleled visual media experience, focusing on the client and their specific, artistic needs and aspiring to help take their brand to the next level.
